YUNIYUNI LOVE HEARTS

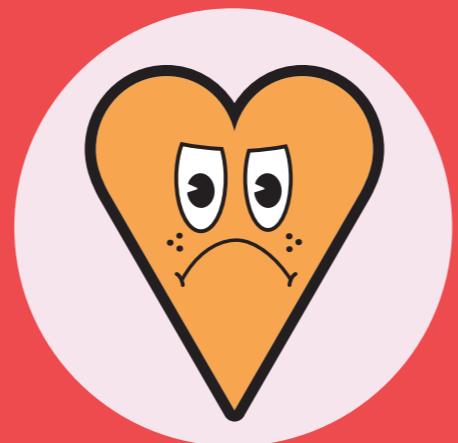

“STARTED FROM TWO LITTLE GIRLS”

YUNIYUNI LOVE HEARTS started from a drawing of two little girls named "YUNI & YUNI", featuring six different colors and expressions. Drawing various colors and expressions of heart-shaped faces every day was like expressing their day, and these various expressions were great inspiration in creating our brand's main character, YUNI-YUNI LOVE HEARTS. We hope to embody the "heart" frame with "heart of loving something" and become beautiful influence that can overcome conflicts and barriers we face. We hope that the diversity and lovely appearance of YUNIYUNI LOVE HEARTS can be used as tool for people living different lifestyles to express themselves.
